Newfolden Utility Rates in 2025

The Newfolden City Council is committed to maintaining stable utility rates, service fees, and property taxes whenever it is possible. Annually, the council reviews goals and related expenses and then prioritizes these against all predictable revenue streams.

The council voted to increase the following utility rates for 2025:

- The electric utility base rate will increase by \$3.90. This includes 250 kwh of consumption.
- The water utility consumption rate will increase \$1.00 per 1000 gallons of water usage.
- The sewer utility base rate will increase \$1.00.

These small increases will prepare for future infrastructure expansion and upgrades. The balance between providing stable service, system upgrades, and planned growth, while maintaining low rates remains one of the council's highest priorities.

Thank you to the American Legion Post 427, and Lori and Kent Warne for all you do to make a day with Santa Claus magical! Each detail is meticulously thought out. Your hard work is so greatly appreciated!

Happy Holidays and remember:

KEEP IT LOCAL!

*Wishing You
Peace, Cheer and many
Blessings in the New
Year!*

DEED-SMALL CITIES DEVELOPMENT PROGRAM

Newfolden has been granted a Small Cities Development Program grant and will soon be accepting applications. The SCDP is funding for housing and commercial rehabilitation projects. It allows local units of government to lend funds for the purpose of rehabilitating housing and commercial property. Loan agreements may allow for deferred payments or immediate monthly payments. Interest rates may vary, and any loan repayments are retained by the City for the purpose of making additional rehabilitation loans. In all cases, housing funds must benefit low and moderate income households. Newfolden's SCDP program is administered through Northwest Community Action. If you participated in a pre-survey last year, indicating your interest in a housing or commercial project, you should be receiving an application for the program's next step automatically.

If you did not participate in the pre-survey, but would like to be considered for the program. Please complete the applicable form below and return as soon as possible. Funds are limited and will be allocated to eligible projects on a first-come, first-serve basis.
